505 - Casa Rogério

In this very nice situated detached house there are three apartments for rent, each one with two bedrooms, a combined kitchen/ living room and a bathroom with a shower. From the whole property there is a wonderful view on the small village Odeceixe south of the river Ceixe, which flows into the Atlantic right near the village. There is a beautiful beach only 3-4 km away.

Odeceixe is situated on the Portuguese Atlantic coast, approximately 3-4 km away from the sea. The village is right on the border with the neighbouring Alentejo region, which begins on the northern bank of the river. Therefore, the house is located virtually in Alentejo, while the village administratively belongs to the Algarve west coast. It is about 13 km to Aljezur, the central city of the municipality, about 45 km to Lagos, the biggest city in the area and about 120 km to Faro, the capital of the Algarve region.

The village is situated the slope of the river valley, and the way from its lower to the upper part is steep and so beautiful that it takes your breath away. The centre of the village is in the lower part. In opposition to other towns on the southern coast, up to now this area has been spared from mass tourism. You will not find many hotels and holiday apartments here yet.

The beach of Odeceixe is an approximately 400 meters of a broad bay including a beautiful sandy beach, surrounded by a steep coast. The river Rio Seixo flows in an s-shaped manner into the bay, so that there is water on both sides of the beach: towards the land there is the river and on the other side the sea. Since there are no waves on the riverside, it is a safe place for little children to play and swim.
